Please describe your comment briefly:

Is it about time the Idaho Power Co. was looked closer at? They have no competition and none is allowed. We pay all sorts of special fees, such as ; summer rates; non-summer rates?, energy efficiency services; service charge. and now they want an increase? Is it not time to put a stop to all these special charges, or deny them any further increase, or permit others to use water ways to generate electricity for there own use without Idaho Power intervention. NO to rate increases.
